AUCTIONEER'S COMMENTS

This is a large mix of household items, tools, furniture, appliances, and collectibles. We will sell one consignors items first to make some room in the building. Due to the large volume of items, we will run two rings most of the rest of the auction. Items to be sold at noon will be set outside for inspection, weather permitting. These include at least one washer/dryer pair, furniture, aquarium, and large tool boxes. In the event of bad weather, these items will be sold inside. We will run one ring only during that time. We do expect more items to show and will update as we can. We are working to bring in some large signs, so please check back after the 29th for pictures. Assuming these arrive, they will sell with the items at noon. The auctioneer in each ring will be responsible for the auction order as they go. Please understand there is a large quantity to be sold and we will do our best to move along, but please come prepared to stay awhile.
