**Saturday, December 6, 2014
12:00 p.m.**

350 Head Sale in Green City, MO

*Featuring Brinkley Angus Ranch,
And Other AI Sires
Basin Excitement, &
PA Safeguard Genetics*

These 350 Heifers were sorted from a field of 1,000 head making this an offering of high quality females not to be missed.

All lots are:

- GeneMax tested
- Confirmed AI Bred or Exposed to Calving Ease Angus Bulls
- Fetal Sexed
- From Reputable Cow Herds

GeneMax is a DNA tool that measures the genetic potential for marbling and postweaning gain in commercial Angus cattle. Measuring these profit-driving traits in heifers allows producers to select females with the greatest genetic potential to pass those traits on. For more information on GMX, CABpartners.com/GeneMax.
