SIMPLE. DURABLE. VERSATILE.

You asked, we delivered.

There are two ways to design a machine. One approach is to strap your customers' boots on and build something you assume they need. Or, you can let them wear their own boots as they tell you what's really needed in the field. Before we set out to build the BPX9000, we listened closely to what our customers wanted and needed in a bale processor. They kept asking for the same things: Simplicity, Durability and Versatility. So that's the bale processor we built.

An optional square bale kit lets you process large square bales evenly and consistently.

CENTRAL BOILER

Spend less time doing what you love. Sorry about that.

Most people don't understand. They look at a pile of wood and see a pile of work. You look at a pile of wood and see the result of an honest day's work. With the E-Classic's efficient design and operation, it requires up to 50% less wood than traditional wood heating. That means your woodpile will last longer. We do apologize for that.

Nelson Lawncare
 Lockridge, IA 641-919-3550

All E-Classic outdoor wood furnaces adapt easily to new or existing heating systems. It's important that your outdoor furnace and system be properly sized and installed. See your local dealer for more information.
