Storage Buildings

That are:

- Efficient
- Comfortable
- Durable
- Low maintenance
- Impact resistant

Built for a Lifetime of Savings!

Compared to a post frame storage building, an EPS Solid Core building can reduce your heating and cooling costs up to 50%.

- ▶ Broad design capabilities offer larger clear-spans, vaulted ceilings and solid, continuous sheeting on the interior.
- ▶ Closed cell foam walls stop the transfer of moisture that results in rust and corrosion.
