### Insect & Bird Wildflower Food Plot Mix

Millions of insects and bees graze on the wildflower blooms. Thousands of birds including Pheasant, Quail and Turkey enjoy high protein meals eating insects, the only diet for chicks under 6 weeks of age.

Every summer the hunter will get antsy watching the birds get fatter & fatter while the Mrs. enjoys the beauty of the wildflowers year after year.

The lazy man's way to feed the birds and keep the wife happy all at the same time - what more could you ask for?

All this is so amazingly easy! Scratch the dirt, spread the seed, and roll the seed in with a roller, tractor or 4-wheeler. Keep the weeds down the first year with a mower, sprayer or just smash them down with a 4-wheeler, tractor or a vehicle.

Call now for our easy seed calibration kit, only \$99 of seed for each acre you want to do and soon you'll have roosters waking you up every morning!
