Case IH rotary cutting knives are built stronger to last longer. Keep your harvesting edge and replace knives to match your current field and crop conditions. Available as single knife or convenient replacement kits, Case IH knives provide clean cuts on the toughest crops and conditions.

7° TWIST KNIVES
 Recommended for abrasive soil and rocky crop cutting conditions. These knives function well for a wide range of field and cutting conditions.

"V" KNIVES
 Recommended for operation in rocky conditions where excessive knife bending is a concern. This knife has greater resistance to bending when coming in contact with a foreign object.

14° TWIST KNIVES
 Recommended for most crop conditions providing a close, clean cut and more lifting action. They're standard equipment on most heads. The 14° Twist Knife also is available with a serrated edge.

18° TWIST KNIVES
 These knives provide a close cut and high lift for superior material flow. They're standard equipment on Case IH self-propelled windrower heads.

KNIFE KITS
 Kits are available to make knife repair quick and easy. The knives and hardware for one disc are included.

KNIVES AVAILABLE FOR ALL MAKES!

The faces and service you have come to expect at Drost Equipment are now part of Van Wall Equipment.

Carl Drost has been serving Oskaloosa and the surrounding communities since 1974. Now, as a new addition to the Central Iowa Van Wall Group of John Deere dealers, a new chapter begins in his history.

Carl and his son, Nick, have found this to be a very positive step forward. "We have expanded to better serve you, our customers, in parts, service, and in sales." said Carl.

"So, now, we have a new name, but we're still at the same location and, as always, there will be the same friendly service and care from the people you know."

Stop in and visit us today.
