## NOTHING TILLS LIKE A TIGER.

The leading factor in crop-yield reduction is soil compaction—but most points do little to alleviate it. Case IH Tiger Points—designed by the engineers behind the number one disk ripper on the market—are different. The 23-degree, downward-rearward- and outward-swept wings—engineered in 1985 after years of in-depth agronomic research—do more than just cut a slot in the compaction layer; in both wet and dry conditions, they create a turbulent lifting and twisting action below the soil surface that aggressively fractures compaction for maximum air and water penetration and minimal runoff. Don't trust your tillage to will-fit points—go with Tiger Points for your best season yet.

Visit [BeRedandReady.com/tiger](http://BeRedandReady.com/tiger) to learn more.

Wow! I placed an ad with a color picture in the Hawkeye Trader and sold my '72 Chevelle in two days. The couple drove two hours to see my car and bought it on the spot. The car had been on Craigs List for a month, with no serious buyers. Thanks, Hawkeye Trader, for getting me results!
