MacDon

TRUE FLEXDRAPER® NO COMPROMISE

The MacDon FD75 FlexDraper® continues to advance harvesting technology. Featuring our fixed reel to cutter bar relationship, this unique design maintains a consistently small critical gap between the reel fingers and cutter bar, even at maximum flex. Allowing for consistently smooth heads-first feeding of the crop to the combine. That's innovation that significantly boosts combine productivity, and it's the reason why more top producers and custom harvesters trust MacDon with their harvest.
